Dear Mrs Peggy Swan

1-06-19

I would like to thank you for all your time and effort. You have done alot for those of us without a voice. For years, my drugs and alcohol dependence and years of depression, ruled my mind and action. Over the past 20-years, my incarceration has given me time to take my core issues. To live drug free and educate myself. So that I truly understand what my morality means. I strongly believe that, if a man server as much time as I have, gets out, then commit another felony, does not deserve a second chance. If granted a second chance, I am willing to live as a true member of, a tax paying citizen. I've been trying to do any and all programs that the D.C.C. will allow me to do. But I am told my PMR date is to far off, And I'm here to just kill time. So thank you for all that you've done.

Sincerely,

STEVEN McCarver # 131757
